CVap® Display Cabinet

Counter top model, fanless

Electronic differential control

General Specifications

- CVap® display cabinets are designed for high quality holding of a wide variety of menu items for extended times.
- Exclusive patented Controlled Vapor Technology (U.S. patent # 5,494,690) establishes that the water vapor content in the cabinet is the same as that of the food. This unique process controls moisture evaporation and saturation, so crisp foods stay crisp, moist foods stay moist.
- Electronic differential controls are easy to understand and reliable. Never require field calibration. FOOD TEMP KEYS allow precise control of food temperature from 90° to 180°F (32° to 82°C). FOOD TEXTURE KEYS maintain just-cooked texture. Set near FOOD TEMP for moist foods, or set higher for crisp foods.
- Built to last with quality craftsmanship, high grade stainless steel construction, and tempered double-pane glass.
- Four perforated stainless steel trays allow you to merchandise any hot food for maximum impact.
- Features full perimeter door gaskets, magnetic door latches, lift-off doors, adjustable trays, and digital readout for water temperature.
- CVap equipment complies with all domestic, and most international requirements, such as UL, C-UL, UL Sanitation, CE, MEA, and others.

Short Form Specs

Shall be Winston CVap display cabinet, model MGB007 with electronic differential control to provide precise food temperature from 90° to 180°F (32° to 82°C) and maintain food texture. Utilizes Controlled Vapor Technology (patent #5,494,690) as a method and apparatus for holding hot foods, consisting of an air heater and water heater to establish ideal water vapor content that is in relation with the moistness characteristics for the food.

Construction

Materials: To be commercial and institutional grade stainless steel to provide ease of cleaning and long service life with reasonable use and care. Utilizes double-paned tempered glass for safety and efficiency.

Racks: Four perforated shelves. Optional rotating rack holds four pizza pans. Removable for easy cleaning.

Doors: Field reversible hinges to allow door lift off to facilitate cleaning. Magnetic door latch.

Controller: Electronic differential control with keys labeled Food Temp and Food Texture.

Water Fill: Operated manually. Low mineral potable water is recommended, otherwise use deionizer/demineralizer to minimize corrosive damage. Visible and audible Low Water indication is standard.

Ventilation: Allow 2" (51mm) ventilation clearance on sides, back, and top of appliance. Install with supplied legs or casters. Refer to use & care manual for specific installation instructions. Generally this appliance does not need to be installed under a mechanical ventilation system (vent hood). Check local health and fire codes for requirements specific to your location.

Electrical: Supplied with 84" (2134mm) minimum power cord and plug.

Warranty

Limited 1 year warranty (excluding gaskets, lamps, hoses, power cords, glass panels, and evaporators). Warranty disclaimer for failure to clean. Ask for complete warranty disclosure.
